Shivam Thapa

Mobile Application Engineer | Flutter Developer | iOS (Swift) in progress
+91-8954752808 | shivamthapa171999@gmail.com | LinkedIn | GitHub | Portfolio
Open to remote roles and international relocation | Seeking visa-sponsored roles

PROFESSIONAL SUMMARY

Mobile engineer with 5+ years in software development, focused on production Flutter/Dart applications since 2022. Shipped apps to the Apple App Store and Google Play using Clean Architecture, BLoC, Firebase/Supabase backends, REST APIs, automated testing and GitHub Actions CI/CD. Improved app performance by 20% in a previous role. Building native iOS skills in Swift and SwiftUI through a personal project; seeking Flutter, mobile engineering or junior iOS roles.

TECHNICAL SKILLS

Mobile: Flutter, Dart, iOS with Swift, SwiftUI, SwiftData (learning, personal project), Xcode
Architecture & State: Clean Architecture, BLoC (flutter_bloc), MVC, MVVM, offline-first design, GoRouter, get_it, fpdart, freezed
Backend & Data: Firebase (Auth, Firestore, Cloud Functions, Cloud Messaging), Supabase (RLS), REST APIs, Hive
Testing & Delivery: Unit testing, widget testing (flutter_test), Git, GitHub, GitHub Actions (CI/CD), TestFlight, Apple App Store Connect, Google Play Console, Firebase Console
Languages: Dart, Swift (learning), Python, JavaScript, PHP
Web & Tools: Angular, React.js, WordPress, HTML/CSS/JavaScript, Laravel, Android Studio, VS Code, Postman, Figma

PROFESSIONAL EXPERIENCE

Freelance Mobile & Web Developer | Remote **2024 – Present**

- **Vendor Payment Management System (Royal India Vacation, in progress):** building a multi-role (Admin, Employee, HOD, MD, Accounts) expense and payment platform for iOS, Android and web with Flutter, Supabase, Clean Architecture and BLoC; covers expense lifecycle, bill/payment uploads, dashboard drill-downs and Supabase RLS policies. Web demo on Vercel; not yet in production. Live demo
- Set up a GitHub Actions CI/CD pipeline for automated builds on VPMS; wrote unit and widget tests (flutter_test) for core business logic in the BLoC layer.
- **Current Diary (School ERP):** developed and shipped a Flutter app live on the Apple App Store for attendance, timetables, fee records and communication across student, teacher and admin roles; used TestFlight for build distribution and testing. App Store | Google Play
- **Swirl Wines (Sweden-based wine discovery app, App Store and Google Play):** contributed Flutter UI features and REST API integration for wine cataloguing and personalised user collections. App Store | Google Play
- Delivered end-to-end client websites, including deployment: Flowerdale School, Dehradun (Angular); Sanwal School, Nainital (WordPress); ShowFlow Pvt. Ltd. (HTML, CSS, JavaScript).

Flutter Developer | Evonix Technologies, on-site **2022 – 2023**

- Maintained and extended production Flutter apps, adding features and deploying updates, using Clean Architecture to reduce codebase complexity.
- Improved application performance by 20% through widget tree optimisation, API call batching and lazy loading.
- Implemented BLoC state management with unit and widget tests for critical modules.
- Contributed to GitHub Actions workflows for automated builds and Play Store releases; took part in sprint planning and code reviews in an Agile/Scrum team.
- Integrated Firebase Auth, Firestore, Cloud Messaging and REST APIs; published and maintained apps on Google Play, including release versioning and hotfixes.
- **Apps maintained:** Quickart Farm Fresh Grocery (iOS | Android); Symbicare (iOS | Android); Leap HRMS (iOS | Android).

Software Developer (Full Stack) | Tree Multi Soft Services, on-site **2021 – 2022**

- Developed and maintained full-stack web applications with PHP, Laravel and React.js across multiple concurrent client projects.
- Built Flutter prototypes independently, which led to the Flutter Developer role at Evonix Technologies.

PERSONAL PROJECTS & LEARNING

- **Notes App (iOS, Swift):** native notes and task app built with SwiftUI and SwiftData (iOS 17+): checklists, image attachments via PhotosUI, local persistence, dark mode. Personal project to practise and validate native iOS skills, not professional iOS experience. GitHub
- **Expensely (Flutter, Hive):** expense manager built as an offline-first app. Google Play
- **Unbranded Avenue (in progress):** own startup, an online jersey store built on Shopify. Live site
- **RAG Assistant (in progress):** Flutter, Python, LangChain and LLM APIs; ingests documents and answers context-aware queries.

EDUCATION

Master of Computer Applications (MCA), Graphic Era Hill University 2018 – 2020
Bachelor of Computer Applications (BCA), Graphic Era Hill University 2015 – 2018
Spoken languages: English (full professional), Hindi (professional), German (limited working)
